ACTIVE GAMES TO PLAY OUTDOOR & INDOOR

SPORT & FUN

FUN-FIT is an energetic board game where you need to complete a series of exercises in the appropriate order and collect pieces to your Fitness Puzzle. The winner is the first person to finish the puzzle and dash to the centre of the board.

FUN-FIT not only requires quick observation and a good memory but strength, coordination and a good set of lungs.

..... Prod. No. **2257**

FAMILY & PARTY GAMES

Just like in real - play the full rugby union tournament! Twenty teams battle through the pool and knock out stages to lift the ultimate prize in world rugby. Roll dice to take on your adversaries. Luck plays its part, but being a better seeded team may be the difference between winning or being knocked out.

The further your favourite team progress, the more nerve wracking the tension becomes...

Prod. No. 2262

RUGBY WORLD CHAMPIONS

AGE	PLAYERS	ELEMENTS	ITEMS IN MULTI-PIECE PACKAGE	ITEM DIMENSIONS	MULTI-PIECE PACKAGE DIMENSIONS

Play the full World Cup Football Tournament! 32 teams battle through the group and knock-out stages to lift the ultimate prize in world football. Roll dice to take on your adversaries, and just like reality, the underdogs can take on the big boys and win. The further your favourite team progress, the more nerve wracking the tension becomes. And like the real thing, luck plays its part, but holding your nerve may be the difference between winning or being knocked out! An excellent game for friends and family alike.

FAMILY & PARTY GAMES

GOT YA! is an “a-maze-ingly” catchy game, requiring the ability to focus and react quickly. Puppies and kittens chase each other in the tangle of a garden maze. Follow their way through the complexities of hedge corridors and be the first to notice who meets up! Simple rules allow even very young children to fully join the play. Two variants of the game - basic and advanced - provide the possibility of adjusting the degree of difficulty.

Prod. No. 1539

GOT YA!

WISE OWL PRESENTS

A fast-paced game of memory, observation and concentration for people of all ages. There are 55 cards with alternating patterns consisting of multi-coloured shapes which correspond to the plastic tokens. Players look at a card for a while, cover it and try to recreate the pattern by quickly arranging tokens on their boards. It's not only the shapes themselves, but also their colours and positions that matter, so be sure you shift the tokens properly.

ORIGAMI

A REAL FEAST FOR LOVERS OF CREATIVE TOYS.

Origami 3D are unique sets that will allow you to create the most beautiful 3D paper sculptures you have ever seen. All this thanks to patented modules, very detailed instructions and step-by-step instructional videos showing how to assemble the selected model. The set includes ready-made cut shapes, with a clearly marked bend line, even suggesting the direction in which we should do it. In three simple movements, we can make a basic module that will be used to create a masterpiece. All modules are assembled identically and then joined together without the use of glue to form a figurine.

ECO FUN

The wooden construction set is a form of creative play that unleashes the deepest layers of creativity. Wooden wheels with notches on the outside can be easily connected to create somewhat abstract forms of houses, vehicles, animals and objects.

ECO MONTINO

The recipe for a great, timeless toy is very simple. It has to be ecological, awaken creativity in children and allow for many hours of entertainment without getting bored! Such is the series „EKO-KREATOR“, which allows you to free your imagination and create from wooden boards phenomenal structures. The set comes with an album of inspirations, but nothing stands in the way of implementing your own ideas, according to your own imagination!

EKOKREATOR

„Babel“ from Alexander is something special because it combines great fun with learning numbers, letters and building simple but impressive structures. And all this in an ecological version, using 60 wooden elements. Colorful sticks will allow children to create the title tower, as well as other structures that will be born in their heads. „Babel“ stimulates creativity, as well as familiarizes little constructors with basic geometric figures and supports learning numeracy and reading.

BABEL

Wooden Tower is a great, intergenerational skill game, where the winner will be the person who best controls emotions and trembling hands. The participants' task is to pull out subsequent wooden posts in such a way as not to damage the structure.

WOODEN TOWER

SAND ARTIST

Grab some sand and start painting now! Uncover selected parts of the picture to expose a sticky surface and then simply sprinkle the chosen fragment with the right sand colour. That's all you need to create your picture and become a real sand artist.

BUILD & PAINT

Fancy cardboard playsets to build and paint yourself. The elements are easy to assemble (no use of glue required). Finding, matching and connecting parts is fun in itself, while also a great way to practice your child's manual dexterity, precision and patience. Once your building has been finished, it can be surrounded by a fence, trees and figures mounted on plastic stands. After assembling the whole set, the second stage of fun begins. You can colour the building and all additional elements however you like with paints or crayons, and then further decorate everything with a selection of stickers included with the set.

TOP FASHION

TOP FASHION is a series of creative playsets comprising several models and hundreds of potential outfits to design. Just cut out the clothing items included in the box and stick them on the cardboard model in various configurations. Then, place your model upright to nicely display the outfit. All has been designed for repeated use. Collecting more sets significantly increases the number of possibilities as the elements can be easily mixed and put together.

PEGS

Create pictures and patterns by attaching colourful pegs of different sizes onto a perforated plastic board. The toy supports creativity, imagination and the ability to perceive key visual traits. Each set includes an inspiration booklet with ready to follow artwork, but feel free to unleash your creativity and cook up your very own pictures. Afterwards simply remove the elements and you are ready to start anew. The possibilities are virtually endless.

PUZZLE

HEADS & TAILS brain-teasing puzzle consists of just 9 tiles, but allows for hours of fine mind exercising entertainment. It all looks very simple. All you need is to put the tiles together into a 3 x 3 square, so that the depicted images match in shape and colour all of their neighbouring pieces. Two picture sets, each with two possible layout solutions, but finding them is far from easy...

TANGRAM is a Chinese transformation puzzle known for about 3000 years. It's a great training for your imagination, perception, concentration and memory. One set consists of 7 various geometric figures (called tans) which form numerous shapes when put together. The goal is to compose a specific shape given only its silhouette with the use of all seven pieces (no overlapping allowed). You can also create your own fabricated shapes. Along with 6 sets of tans and 61 brain-teasing silhouettes, we give you 3 exciting game variants for up to 6 players.

GAME SET 4 IN 1 - BEST FRIENDS FOREVER

5 906018 017618 >

An excellent gift-set for any child. Includes three well-known games that every kid should try together with their friends: Black Peter (Old Maid) – a simple card game for the youngest; a popular memory-training game, a standard 28-tiles domino set (with several playing variations), as well as a 60-piece jigsaw puzzle. All bonded with a similar pictures theme.

4+	1-4	163	8	30.5/24.5/5	42/39/27
AGE	PLAYERS	ELEMENTS	ITEMS IN MULTI-PIECE PACKAGE	ITEM DIMENSIONS	MULTI-PIECE PACKAGE DIMENSIONS

A series of game sets, each with two great classics inside. Games based on rolling dice have been played around the globe from the dawn of humanity. Domino is one of the most popular and largest game families in the world. Pick-up sticks is a popular family game of manual skills and mental focus.

CLASSIC GAMES

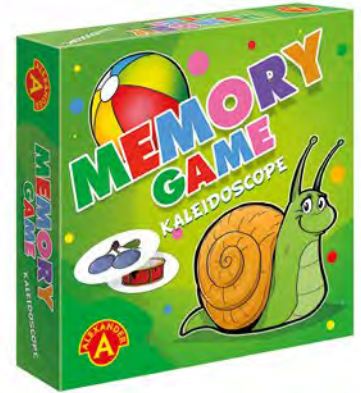

A popular mind-sharpening game in which you have to remember where pairs of matching pictures are located. Turn over random tiles lying face down and check if they make a pair. The game is a great way to train your memory and observation skills, and can be enjoyed by children and adults alike.

ABOUT US

WHO ARE WE?

Alexander has been producing and publishing board and educational games for children for over 40 years. Alexander is a family company with Polish capital.

In our offer you will find toys and board games as well as educational, construction and mental, random and dexterity games. The assortment also includes puzzles, windmills and cards. As a company with the needs of its recipients in mind, we are constantly looking for new solutions to offer an attractive form of spending time by children and entire families.

The main market is our home Poland where we are present with our goods in almost every single toy shop, every bookstore, most of the major chain stores, hyper- and supermarkets, up to newsstands, pharmacies discount chains and post offices across the whole country. We regularly export goods to numerous countries in the European Union as well as to several overseas destinations.

ALEXANDER TOYS ENVIRONMENTAL INITIATIVE:

- Our steel waste is resold to a certified company dealing with metal recycling.
- We have the environmental permit required by the EU directive for the powder paint shop, unified with our law in Poland.
- We recirculate the powder paint for reuse, emitting it to the environment to a minimal extent.
- Chemical cleaning of the racks for painted elements is contained within a closed environment.
- The resulting waste from varnish and paint is discharged into a closed tank which includes a gravity separator. When the waste tanks are full, a company dealing with the neutralization of paint shop waste removes all waste.
- The vibro-abrasive machining area works in a closed system, reducing noise and vibration pollution.
- The waste water we use during the production process is moved to a sewage processing machine, whose task is to separate the solid from the liquid fraction and pump it back into the system to be reused during the machining of the components. The solid fraction is sent to a waste collection company.

OUR VISION:

The most important value for us is spending time together with family, which builds positive relationships. That's why Alexander's goal is to provide smart, developing entertainment that is great for deepening relationships and ensuring everyone has a good time. Educational through play is also important for the company. We make sure that our products are affordable, which is why we apply a balanced pricing policy.

OUR STRENGTHS:

Current production facility is of 10,000 m² & storage space of 4,000 m²

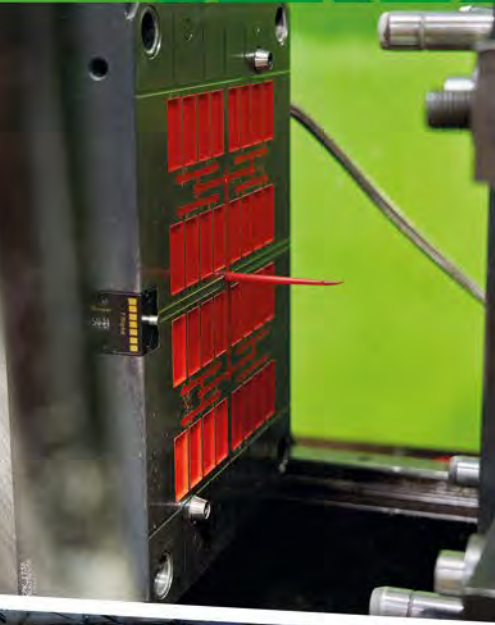

Production: 97% in-house + 3% out-sourced. Extremely flexible due to possessing our own printing house, injection moulding machines and metal parts production line which produces the majority of our paper, plastic and metal components. This enables us to have reasonable MOQs with very quick LEAD times

Imports: Focused on collaboration with Polish and European suppliers, only 3-5% importing of raw materials

Standards: All products comply with EU quality and safety conditions

ABOUT US

IMPOSSIBLE DOESN'T EXIST!

We share our best knowledge with the customers and suggest variety of technological solutions in their games production.

Our proven technologies can help you create both economical, simple promotional gadgets and more complex products for demanding customers. Thanks to that flexibility we present the individual service to the customer and propose ready-made solutions or create new ones. We focus on the continuous development of our technologies, involving newer machines in the production processes and training specialists in their use.

We employ highly qualified specialists who work with modern equipment such as printing and binding tools, injection moulds, plotters and laser-cutters.

Our technology brings together multifunctional machines for processing paper, cardboard, plastics, metal and wood in a single facility on the coast of Poland.

We value the fact that our customers are given a choice whether to go for simple or complex solutions, as we provide them both.

It is all thanks to our advanced technology. Our creative team offers completion of one's order from the very idea to the final product. We have our own storage facilities which we constantly expand.

Being one of the biggest Polish toy manufacturers we support the domestic industry as well as provide employment to many local residents. We truly value the region's culture and traditions as it is our homeland.

More than 300 employees make a great and cooperative team that is the beating heart of our company.

We accept all the new challenges and process each fascinating project of our customers gladly. We are enthusiastic about their success!

Seeing the effects of our work we want to feel proud. That is why we focus not only on the fast production and price attractiveness but also on the quality.

We accept all the new challenges and process each fascinating project of our customers gladly. We are enthusiastic about their success!

Seeing the effects of our work we want to feel proud. That is why we focus not only on the fast production and price attractiveness but also on the quality.

Our priority is to meet the customer's expectations and build trust to our company, which is a solid foundation for every cooperation.

We can do it all by combining our knowledge, creativity, advanced technology and half-century experience.
