3D ORIGAMI

A REAL FEAST FOR LOVERS OF CREATIVE TOYS

Origami 3D are unique sets that will allow you to create the most beautiful 3D paper sculptures you have ever seen. All this thanks to patented modules, very detailed instructions and step-by-step instructional videos showing how to assemble the selected model. The set includes ready-made cut shapes, with a clearly marked bend line, even suggesting the direction in which we should do it.

In three simple movements, we can make a basic module that will be used to create a masterpiece. All modules are assembled identically and then joined together without the use of glue to form a figurine.

3D ORIGAMI ADVANTAGES:

- A creative set that you will assemble without glue and without cutting out.
- The toy consists of ready-made modules that you will assemble in 3 movements.
- 12 levels of difficulty (everyone will choose the perfect set for themselves).
- Extensive, clear instructions guiding you step by step to create a paper sculpture.
- Step-by-step video instructions showing every move.

It's never been easier to create something as beautiful as with Origami 3D.

See video presentation about our company!

3D ORIGAMI

.....
The ORIGAMI 3D creative toy series received incredible success at Spielwarenmesse 2023 and the model of Peacock was nominated for the prestige „Toy Award 2023”.
