metalcraft

by ALEXANDER

We all have something we truly love.

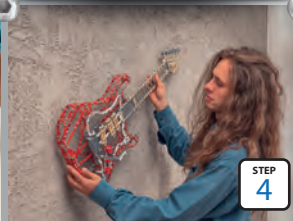

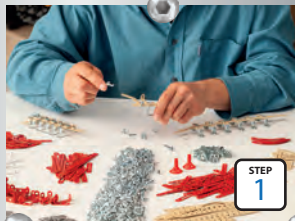

Music, history, adventure. The moment, when your heart starts beating faster, since you are close to your passion.

MetalCraft was created to capture exactly that feeling.

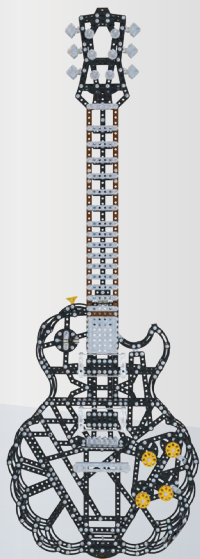

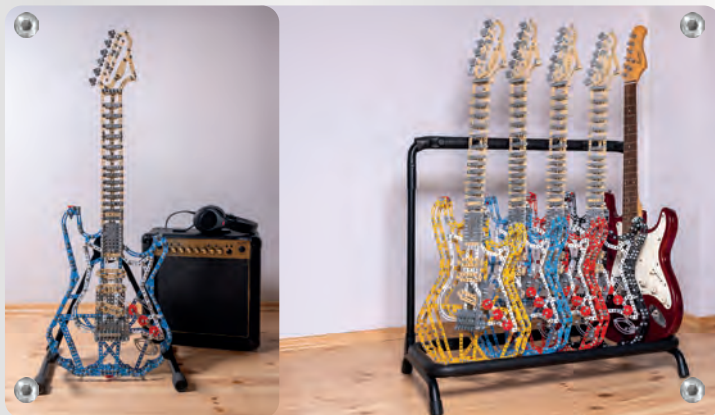

From a handful of metal plates and screws, you'll soon bring life to something unique – each model is more than just an object.

It's a breathtaking home decoration and... a statement of who you are.

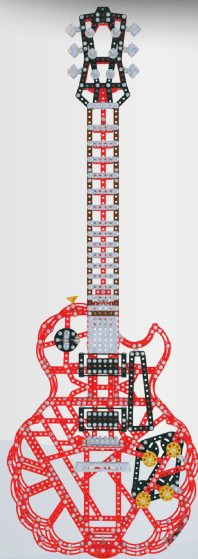

MetalCraft – for what you love deserves a form that no one will ignore.

Passionate about guitars? We've got something truly special for you – an innovative DIY kit that will let you build your own guitar model in full 1:1 scale!

For Sea and Piracy Enthusiasts

The sound of waves, the wind in the sails, and the allure of rebellious piracy – bring this world into your own space. Decorate your wall with a “just like real” pirate skull, a set of swords or pistols.

Pistols and swords are available individually or as a set of two.

MetalCraft Smartphone Stands

Practical and full of character – our smartphone stands will not only keep your desk organized but also express your passions. Whether you are a music lover or you're drawn to the sea, this stylish accessory will be a daily reminder of what truly matters to you.

Looking for something smaller to add character to your desk?
Discover our series of desktop mini gadgets.

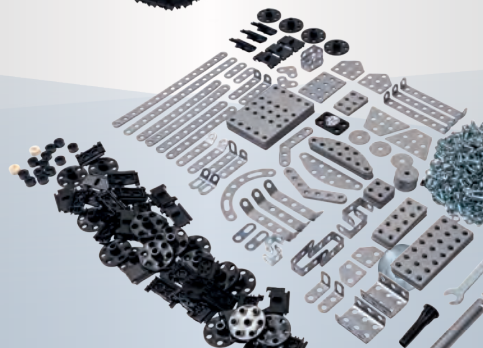

WORLD OF TANKS

If you're more up to gaming and armored battles, this will bring your passion beyond the screen. Together with Wargaming, we've designed an eye-catching series of World of Tanks metal models, that will let you build the most iconic tanks from the game. Each model captures a piece of battlefield excitement to your shelf or desktop.

The sets come also with free ingame gift codes for new and existing players.

MetalCraft & World of Tanks – as true passion doesn't end when you log out.
